

Dear Parents,

We are extremely pleased to announce that we will be holding our first parent event of the year on Friday 30th September. Due to the pandemic parents, events were unfortunately cancelled due to health and safety. This year we aim to provide as many opportunities as possible for parents to come into school to take part in events with their children.

On Friday 30th September, we welcome parents into school to take part in an afternoon filled with fun. As you know our topic this half term is “Litter Bug” we have learnt so much about recycling and the importance of recycling. Children have already learnt about the 3 Rs, Reduce, Reuse and Recycle. During this afternoon, we ask that parents support children with our Design and Technology topic. We will be making new items using recycled products.

Please enter school through the main entrance at the office to enable you to sign in and then come to your child’s classroom. The afternoon will begin at 1:15 and end around 2:45.

This mean we need to begin collecting materials to support us with our afternoon. Please can you begin to bring in things such as milk bottles, cardboard boxes, tubes, and old clothes, anything you think we could re-use to make something new Please ensure all products are washed thoroughly before bringing them into school

We really hope you can attend. Please get your creative brain going, we want some amazing inventions.

Thank You

Mrs Whitney & Miss Wild
